SUMMARY

As a student in E-commerce with a background in web development, I am looking for a front end developer internship program. I bring strong problem-solving skills and a deep passion for technology. My ability to work effectively in teams further complements my desire to excel in the field. I am excited to leverage these skills and contribute everything I have.

EDUCATION

Bachelor of E-commerce

Minor in Web development · University of Information Technology · Ho Chi Minh, VN · 2026 · 7.8 GPA

PROJECTS

Laandlin E-commerce website

Freelance · laandlin.vercel.app/ · September 2024 - Present
· **Developed and designed** the front-end of the Laandlin E-commerce website, ensuring a responsive and user-friendly interface for seamless shopping experiences.
· **Implemented key e-commerce functionalities**, such as product catalogs, search, filtering, cart, and checkout, optimizing for performance and usability.
· **Designed visually appealing UI components** using modern design principles and created engaging layouts to enhance user engagement.
· **Optimized website performance** by implementing best practices, such as lazy loading and efficient asset management, to achieve faster load times.
· **Conducted cross-browser and cross-device testing** to ensure consistent functionality and visual integrity on various platforms.

Frenzy E-commerce website

University of Information Technology · February 2024 - May 2024
· **Led Development Team**: Managed a multidisciplinary team, coordinated tasks, and ensured project deadlines were met while maintaining high-quality code and design standards.
· **Full-Stack Development**: Designed and implemented both front-end (React) and back-end (Node.js, Express) functionalities to deliver a complete and seamless user experience.
· **Database Management**: Set up and optimized the database structure (using technologies like MongoDB or MySQL) to ensure efficient data handling for user accounts, orders, and product inventory.
· **UI/UX Design**: Crafted intuitive and engaging user interfaces, utilizing wireframes and design tools to create a user-friendly and aesthetically pleasing website.
· **Feature Implementation**: Developed essential e-commerce features, including user authentication, product search and filtering, shopping cart, checkout process, and order management.

SKILLS

Techical Skills: ReactJS, Javascript, Redux, HTML, CSS, GIT

Industry Knowledge: UX/UI, Development Operations, Testing, Debugging, Usability Research

Languages: Toeic 820 Score

COURSEWORK

The Complete JavaScript Course 2024: From Zero to Expert!

Udemy · 2023 · Javascript, OOP
· Mastered JavaScript fundamentals and modern ES6+ features, building real-world projects using design patterns and async techniques. Applied OOP principles and leveraged tools like NPM, Parcel, and Babel for efficient development.

The Ultimate React Course 2024: React, Next.js, Redux & More

Udemy · 2023 · React, JavaScript, Redux, Redux Toolkit, Tailwind CSS, Styled Components
· Applied advanced React, JavaScript skills to develop and optimize single-page applications with reusable and efficient components. Managed complex state using Redux, Redux Toolkit, ensuring smooth and responsive user experiences. Leveraged performance optimization techniques, including memoization and code splitting. Styled modern and responsive interfaces using Tailwind CSS and Styled Components.
