EDUCATION

University of Information and Technology - VNUHCM

Bachelor of E-Commerce - 7.8/10   Expected: March 2026

Major in Web Development

WORK EXPERIENCE

Atom Solution

Frontend Developer Intern   March 2025 - May 2025

- Developed and refined over 10 unique UI screens with multiple iterations, converting Figma designs into pixel-perfect UI using Next.js, Tailwind CSS, and TypeScript.
- Managed tasks in Odoo using a Kanban-style workflow, handling task assignments, time allocation, status updates, and logging notes for code reviews and approvals.
- Utilized Git and GitLab for version control, enabling efficient code management, branching, and collaboration across team projects
- Took ownership of UI testing workflow, reducing visual bugs by 60% through structured mentor sessions.

SKILLS

- Programming Languages: C/C++,PHP, JavaScript, TypeScript
- Frontend: ReactJS, React Native, Next.js, Tailwind CSS, shacdn/ui, Redux, HTML5, CSS3
- Backend: Node.js, Express, REST APIs, MongoDB, MySQL
- Tools & Others: Git, Odoo, Figma, UI/UX design, Laragon, Chrome DevTools, AI-assisted development tools
- Language: TOEIC 820/990 scores
- Soft Skills: Team Collaboration, Problem Solving, Time Management, Usability Research

PROJECTS

Laandlin E-Commerce Website | laandlin.com | Freelance   July 2024 - January 2025
- Developed and designed the front-end of the Laandlin E-commerce website, ensuring a responsive and intuitive e-commerce interface, and improving user engagement.
- Implemented key e-commerce functionalities such as product catalogs, search, filtering, cart, and checkout.
- Designed visually appealing UI components using modern design principles to enhance user engagement.
- Led weekly feedback loops with the client to iterate on UI/UX.

Laandlin | https://github.com/iTeddy1/laandlin-app | School Project   April 2025 - June 2025
- Led a 6-member team to develop a React Native e-commerce app with Node.js/Express backend, featuring JWT authentication, product filtering, and similar product recommendations.
- Reduced API response time from 800ms to 210ms by optimizing MongoDB queries and pagination logic.
- Deployed the backend server on Vercel, ensuring smooth and scalable hosting.

Frenzy | https://github.com/iTeddy1/frenzy | School Project   February 2024 - May 2024
- Led a 5-member team through agile sprints to deliver a fully functional e-commerce app in 10 weeks.
- Designed and implemented scalable cart and checkout flows in React, reducing user friction by simulating a real store experience.
- Applied usability testing on 10 users, iterated design based on feedback using Figma.
- Optimized the database structure for efficient handling of user accounts, orders, and product inventory.
