Language: TOEIC 820/990 scores

Soft Skills: Team Collaboration, Effective Planning, Usability Research, Prioritization Skill

Work Experience

Frontend Developer Intern, Atom Solution – District 7, HCM

March 2025 - May 2025

- Built 20+ production-ready UI screens in **Next.js & Tailwind** with near pixel-perfect design fidelity.
- Structured and maintained a Kanban-based task system in Odoo for task reviews and approvals.
- Implemented a flexible filter component that adapts to multiple blog data types.

Software Engineer Intern, TVE Technique Company Limited – District 2, HCM

July 2025 - December 2025

- Built reusable frontends with custom validation, shared layouts, table wrappers, standardizing data workflows.
- Architected a reusable backend framework based on **Layered Architecture**, enabling standardized, scalable solutions across ERP applications and successfully applied to **2 company projects**.
- Deployed the containerized app on-site using **Docker**, delivering real-time reporting & reducing manual work.

Projects

Money Management - Fullstack Developer

June 2025 – July 2025

- **Delivered** a containerized solution using **Docker** for infrastructure, achieving **100% delivery of MVP features**.
- Built a SPA using **React 19, TypeScript**, leveraging modular architecture for high maintainability.
- **Built a accessible and responsive UI system** with **shadcn/ui, Tailwind CSS**. Developed complex financial forms integrated with **React Hook Form, Zod** ensuring 100% data accuracy on the client side.

Laandlin – School Project - Fullstack Developer

April 2025 – June 2025

- Led a **6-member team** to develop a **React Native** e-commerce app with **Node.js/Express** backend.
- Reduced API response time from 800ms to 210ms by optimizing MongoDB queries and pagination logic.
- Deployed the backend server on **Vercel**, ensuring smooth and scalable hosting.

Laandlin E-Commerce Website – Freelance - Frontend Developer

July 2024 - January 2025

- Developed and design frontend with unified color palette across **25+ user and admin pages**.
- Reduced bundle size from 20MB to 2MB result in **90% faster loads**.
- Implemented SPA frontend with Axios locale headers, static content mapping, and multi-currency exchange.
